## Moulded Case Circuit Breaker

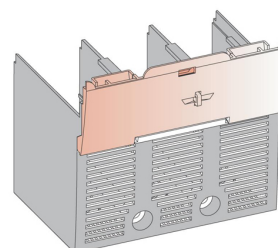

Industrial Components > Moulded Case Circuit Breaker

**Ref. No.:** [432079](#) **Cat. No.:** FEJL3

**FE-2 Protection Terminal shield long with cover 3P**

**EAN13:** 5050096320792

Representative image below

## ORDER/DELIVERY STATUS

Status Active

## SPECIFICATIONS

Series	Accessories
Range	Protection
Number of poles	3P
Frame type	E frame (160A/250A)
Type of Accessory	Terminal shields
Accessory Detail	Long Terminal shield with cover
Measurements	97.1x105x85.1 mm
Standard packing	1

## DIMENSIONS

Weight 0.3 kg

## CLASSIFICATION

ETIM 5.0 EC002035

## DESCRIPTION

### Terminal shields

Terminal shields are installed on the incoming or outgoing side of the breaker thus achieving a heightened protection degree, independent of the type of connection used. For fixed breakers with rear connection or the plug-in or withdrawable versions of the Record Plus™ breaker the installation of short terminal shields is mandatory and they are normally supplied as part of the kit.
